Tips to Grow Healthy Plants :

Find them a sunny spot because they love and need lots of light. I prefer a spot where they receive the morning sun. If you have them in pots and/or other containers, it is good to move them during the day to take advantage of changing sunlight. They are thirsty plants. Water them daily, especially if they are producing fruit. It is best to do it in the morning and to avoid wetting the leaves for disease prevention. Keep them
